

“Thanks to you for following up with me. You calling me to check on things is very much appreciated and has not happened in the past by other offices so I really appreciate and feel as if you want the business from me and my team.”

Thanks Melanie

“I first began working with Diane Nelson and Wendy Kozuback in 2002. It immediately felt like a partnership. I am confident that the moment I open escrow for a client, my client will be cared for and feel supported by the Fidelity team including Mercy Perry.

On the occasion that a transaction gets complicated, Diane is always level headed and has the gift of being very “calming” in the midst of a storm! In situations where there is a need for an urgent response, Diane and her team are always available. I’ve had a handful of clients over the years that required Diane’s services outside of normal businesses hours. Diane and her team have never hesitated to do whatever it takes in time and energy to get the job done with excellence, even if it is an inconvenience and would be an unreasonable request for others.

As an agent, I am constantly looking for resources to promote and support my clients and my business. Wendy Kozuback has been a tremendous blessing in this area. She is on the cutting edge of what is available in the marketplace. This saves me a tremendous amount of time because I don’t have time to sift through all the options to find the best one, Wendy does it for me. Wendy and her team have always made their office space available outside escrow activities to support the growth of our business.

If you are seeking quality, accuracy, value, and a hassle free transaction coupled with compassion and sincerity in a title company, there is no one better than this team! They enhance my success and peace of mind! It's a great life!”

“In my humble opinion, Fidelity National Title’s “Corridor” Group, and specifically Mercy Perry, can and will perform miraculous recoveries for transactions, including and particularly those on life support. You cannot afford to not have this team on your side.”
